Main App Layout

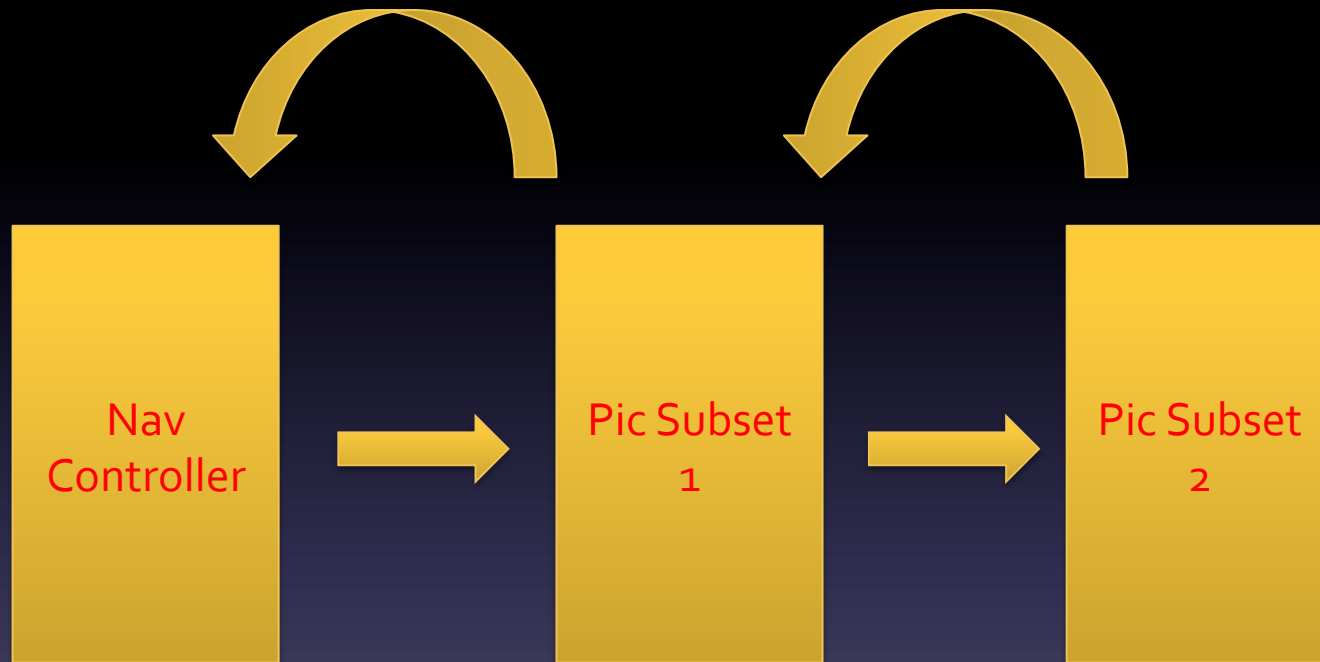

Home Tab

- Home page displays proper main page heading
- Subsection titles are present, identifying the tabs in the bottom nav
- The bottom nav elements contain titles
- Bottom nav elements all work

Drone Pictures Tab

Navigation Controller pushes user along to view two sets of pics .

Research tab

First View

- The name of the article is present
- Shows a list of five topics from the research article
- A delete button is present below the main tableview
- A link button is present below the main tableview
- The separate entries are selectable and transitions the user to the second view

Second View Customcell/ tableview

- The name of each topic is present
- Shows the same image as the first view
- A text view is present showing the viewer the research detail
- A back button returns the user to the first view

Types Tab

Types Tab

- Types view has a segmented element
- The segmented control element changes the background color, depending on the type selected.
- The different selected types information is displayed in a text view
- An Image associated with the selection is also displayed
